

District Service Policy

Section G Service Rates and Fees

Unless specifically defined in this Service Policy, all fees, rates, and charges as stated shall be non-refundable.

- 1. Classes of Users.** All users of the District's water and/or wastewater services shall be classified as either standard or non-standard service, as further defined in Section E and Section F of the Service Policy. Either class of users may be further classified into sub-classes according to the potable water meter size by which service is provided or diameter/size of the requested wastewater connection.
- 2. Service Investigation and Feasibility Study.** Upon receipt of a Service Application, the District shall conduct a service investigation for each service application submitted to the District. An initial determination shall be made by the District, without charge, as to whether the service request is Standard or Non-Standard. An investigation shall then be conducted and the results reported under the following terms:
 - a. All Standard Service requests shall be investigated without charge and all applicable costs for providing standard service shall be quoted in writing by the District to the Applicant within ten (10) working days of receipt of the application for standard service.
 - b. All Non-Standard Service requests shall be subject to charges, appropriate to each project, of sufficient amount to cover all administrative, legal, and engineering fees required by the District to:
 - i. conduct a feasibility study,
 - ii. provide cost estimates of the project,
 - iii. develop detailed plans and specifications as per developer's plat and/or review and approve plans prepared by Developer's engineer,
 - iv. advertise and accept bids for the project, to the extent applicable,
 - v. prepare and execute a Non-Standard Service Contract with the Applicant,
 - vi. prepare and execute an impact evaluation funding agreement, if determined to be appropriate in the discretion of the Board of Directors, and
 - vii. provide other services as required by the District for such investigation.
 - c. The Developer of any property that is to be subdivided, or otherwise requires Non-Standard Service, shall submit a plat to the District for approval. The Developer shall pay for the District to perform a feasibility study and plan review including all engineering, legal and administrative costs. The Developer shall initially provide a deposit on these charges for water service investigation and for wastewater service investigation, to the extent that water and wastewater service is requested.
 - d. If the District's costs to perform the feasibility study exceed the Developer's feasibility study fee deposit, additional deposits will be required until the study is complete. Failure to provide such deposit could result in delays in processing the application. If the feasibility study fee deposit is in excess of the District's cost to perform the feasibility study, the excess amount shall be refunded or credited toward the Developer's costs under the Non-Standard Service

Contract.

- 3. Security Deposit.** A refundable Security Deposit must be paid before service shall be provided for the Applicant by the District. The Security Deposit amount for residential and non-residential customers is set out in Section G.29.3.
- 4. Easement Costs.** When the District determines that private right of way easements and/or facility sites outside the Applicant's property are necessary to provide service to the Applicant, the District shall make good faith efforts to secure easements on real property at a reasonable cost. The Applicant shall pay all actual costs and expenses incurred by the District in researching, surveying, validating, negotiating, preparing, acquiring, and filing such right-of-way or real property in addition to fees otherwise required pursuant to the provisions of this Service Policy. The costs may include legal fees and expenses, appraisal fees, surveying and engineering fees and expenses, Commissioners' hearing and court costs associated with any condemnation process, and the negotiated compensation or condemnation award necessary to secure such right-of-way and/or facilities sites. The Applicant shall provide a deposit to the District for each easement or facility site that the District determines is necessary to provide service to the Applicant's property. See Appendix A for the easement deposit amount. The Applicant shall pay all actual easements costs and expenses upon receipt of a written request for payment from the District, even if such amount exceeds the deposit. The District shall credit the deposit towards all costs and expenses incurred by the District necessary to secure such right-of-way and/or facilities sites. In the event that the actual easement costs and expenses are less than the deposit, the District shall refund the excess amount to the Applicant.
- 5. Fee Calculations.** The water and wastewater fees described in the following sections shall be calculated based on the number of Living Unit Equivalents (LUEs) for a given property or development. An LUE is defined as the typical flow that would be produced by a single-family residence located in a typical subdivision.
- a. Standard Service.** A standard service shall be defined as one (1) LUE.
 - b. Non-Standard Service.** The following table shall be used to calculate the number of water and wastewater LUEs for Non-Standard Service applications. For developments that are not described below, the District's Engineer and Manager shall determine the most appropriate LUE conversion.

<u>Land Use</u>	<u>Type of Development</u>	<u>LUE Conversion</u>		
Residential - Single Family	Single Family Home, Townhome or Mobile Home*	1	LUE per	home
Residential - Other	Duplex	2	LUEs per	structure
	Condo or Apartment (<24 units/acre)	0.7	LUE per	unit
	Condo or Apartment (24+ units/acre)	0.5	LUE per	unit

<u>Land Use</u>	<u>Type of Development</u>	<u>LUE Conversion</u>		
Commercial - Business	Hotel or Motel	2	rooms	per LUE
	RV Park	5	spaces	per LUE
	Office Building	3,000	square feet	per LUE
	Retail/Shopping Center	1,660	square feet	per LUE

	Restaurant/Cafeteria	200	square feet	per LUE
	Hospital	1	bed	per LUE
	Rest Home	2	beds	per LUE
	Church	70	seats	per LUE
Commercial - School	High School	13	students	per LUE
	Elementary School	15	students	per LUE
Industrial	Warehouse	4,000	square feet	per LUE

*Note: The LUE Conversion for Mobile Homes that are part of a Mobile Home Community which is served by a master water meter may be reduced to 0.7 LUE per home for water service only.

- c. Special Scenarios. If deemed appropriate by the District Engineer and Manager, the number of LUEs may be calculated based on the size and type of the water meter installed according to the following table. This calculation would apply to irrigation meters and other special scenarios encountered on a case-by-case basis.

<u>Meter Size</u>	<u>LUEs</u>
5/8"x3/4"	1.0
3/4"	1.5
1"	2.5
1 1/2"	5.0
2" PD	8.0
2" ULTRA	11.0
3" ULTRA	25.0
4" ULTRA	44.0
6" ULTRA	70.0

6. Monthly Reservation Fees

- Standard Service. Monthly Reservation Fees are not required for Standard Service.
- Non-Standard Service. The Monthly Water Reservation Fee is a monthly charge for each lot of a new subdivision or other property for which a meter has not been installed but for which the District and Developer or other person have entered into an agreement or contract which reserves potable water service. The Monthly Water Reservation Fee shall continue for each lot until such lot becomes an active water service connection for which all connection fees have been paid and which lot is receiving monthly water service. The Monthly Water Reservation Fee shall apply to all Non-Standard Service Requests, except for certain historic non-standard service agreements effective between July 20, 2022 and September 19, 2022 that do not contemplate the payment of Monthly Reservation Fees. See Appendix A for the Monthly Water Reservation Fee amount.

7. Impact Fees for Water Service

- For each new connection for water service, the Applicant shall pay the applicable Water Impact Fees for its share of the water capital improvements necessary to serve such new connection. At this time, the District's water impact fee payment policy, provided herein, is based upon the understanding that the construction of capital improvements are necessary to provide service.

- b. For standard water service requests, the Applicant shall pay the District the applicable Water Impact Fee on the date that the Applicant files an application to establish new water service. The applicable Water Impact Fee is the Water Impact Fee in place on the date that the Applicant files such application to establish new water service with the District.
 - i. After 5:00 p.m. on July 20, 2022, the applicable Water Impact Fee amount is \$11,705.00 per LUE.
 - ii. On or prior to 5:00 p.m. on July 20, 2022, the applicable Water Impact Fee amount is \$3,765.00 per LUE.
- c. For non-standard water service requests, after the Applicant and District have entered into a fully executed, written non-standard service agreement for water service, the Applicant shall pay the District 50% of the applicable Water Impact Fee no later than 90 days after the date that (i) the Applicant requests the District to reserve a specific quantity of LUEs of water service and (ii) the District confirms in writing to Applicant that it can and will reserve such capacity of water service for the Applicant, in accordance with and subject to the terms of the non-standard service agreement for water service (the date that both prerequisites are fulfilled is the “**Water Capacity Confirmation Date**”). The Applicant shall pay the District the remaining 50% of the applicable Water Impact Fee no later than (i) the date the first meter is set, or (ii) eight months after the Water Capacity Confirmation Date, whichever is sooner. Notwithstanding the forgoing portion of this subsection, the General Manager shall have the authority and discretion to negotiate and enter into a non-standard service agreement with an Applicant contemplating an alternative Water Impact Fee payment timing schedule, so long as the Applicant remains obligated to pay the entire assessed Water Impact Fee amount; and such alternative Water Impact Fee payment timing schedule shall have no impact on the amount of the assessed Water Impact Fee amount, as contemplated by this District Service Policy.
 - i. If the Water Capacity Confirmation Date is after 5:00 p.m. on July 20, 2022, then the applicable Water Impact Fee amount is \$11,705.00 per LUE.
 - ii. If the Water Capacity Confirmation Date is on or prior to 5:00 p.m. on July 20, 2022, then the applicable Water Impact Fee amount is \$3,765.00 per LUE; provided, however, that if the Water Capacity Confirmation Date is on or prior to 5:00 p.m. on July 20, 2022 but the reservation of such LUEs has expired according to the terms of a written non-standard service agreement between the Applicant and the District, then the Applicant will need to re-request a specific quantity of LUEs of water service and the District will need to re-determine whether it can provide such quantity of service, generating a new Water Capacity Confirmation Date.

8. Impact Fee for Wastewater Service

- a. For each new connection for wastewater service, the Applicants shall pay the applicable Wastewater Impact Fees for its share of the wastewater capital improvements necessary to serve such new connection. At this time, the District’s wastewater impact fee payment policy, provided herein, is based upon the understanding that the construction of capital improvements are necessary to provide service.
- b. For standard wastewater service requests, the Applicant shall pay the District the applicable Wastewater Impact Fee on the date the Applicant files an application to establish new wastewater service. The applicable Wastewater Impact Fee is the Wastewater Impact Fee in place on the date that the Applicant files such application to establish new wastewater service within the District.
 - i. On or after September 19, 2023, the applicable Wastewater Impact Fee amount is \$2,500.00 per LUE.

- ii. Before September 19, 2023, the applicable Wastewater Impact Fee amount is \$1,250.00 per LUE.
- c. For non-standard wastewater service requests, after the Applicant and District have entered into a fully executed, written non-standard service agreement for wastewater service, the Applicant shall pay the District the applicable Wastewater Impact Fee on the date that (i) the Applicant requests the District to reserve a specific quantity of LUEs of wastewater service and (ii) the District confirms in writing to Applicant that it can and will reserve such capacity of wastewater water service for the Applicant in accordance with and subject to the terms of the non-standard service agreement for wastewater (the date that both prerequisites are fulfilled is the “**Wastewater Capacity Confirmation Date**”).
 - i. If the Wastewater Capacity Confirmation Date is on or after September 19, 2023, then the applicable Wastewater Impact Fee is \$2,500.00 per LUE.
 - ii. If the Wastewater Capacity Confirmation Date is before September 19, 2023, then the applicable Wastewater Impact Fee is \$1,250.00 per LUE.

9. Fees for Water and Wastewater Service:

- a. **Standard Potable Water Service.** Standard service is considered to be one 5/8” x 3/4” meter. Total fees due prior to meter installation are as follows:
 - i. Water Impact Fee, as determined in Section G.7, and shall be non-refundable for any reason, except as provided by Texas Local Government Code Chapter 395;
 - ii. Water Acquisition Fee for the cost of acquiring water (See Appendix A for the Water Acquisition Fee amount);
 - iii. Connection Fee which includes all labor, materials, engineering, legal, customer service inspection, and administrative costs necessary to provide individual metered water service (See Appendix A for the Connection Fee amount);
 - iv. Security Deposit per section G.3 (See Appendix A for the Security Deposit amount); and
 - v. Administration Fee (See Appendix A for the Administration Fee amount).
- b. **Standard Wastewater Service.** Standard service is considered to be one (1) LUE. Fees due prior to connection are as follows:
 - i. Wastewater Impact Fee, as determined by Section G.8, and shall be non-refundable for any reason, except as provided by Texas Local Government Code Chapter 395;
 - ii. PCU Fee pass-thru to Plum Creek Utility for wastewater treatment services (See Appendix A for the PCU Fee amount); and
 - iii. Inspection Fee per wastewater tap (See Appendix A for the Inspection Fee amount).
- c. **Non-Standard Potable Water Service.** Total fees due for non-standard potable water service for each connection are:
 - i. Water Impact Fee, as determined in Section G.7, and shall be non-refundable for any reason, except as provided by Texas Local Government Code Chapter 395;
 - ii. Water Acquisition Fee for the cost of acquiring water (See Appendix A for the Water Acquisition Fee amount);
 - iii. Connection Fee which includes all labor, materials, engineering, legal, customer service inspection, and administrative costs necessary to provide individual metered potable water service. (larger meters are subject to a higher fee and will be billed for the actual costs incurred by CLSUD to purchase and install larger meter) (See Appendix A for the Connection Fee amount);
 - iv. Security Deposit per Section G3 (See Appendix A for the Security Deposit amount);

and

v. Administration Fee (See Appendix A for the Administration Fee amount).

d. Non-Standard Wastewater Service. Total fees due, per LUE, a minimum of 545 days prior to initiation of wastewater service are:

- i. Wastewater Impact Fee, as determined by Section G.8, and shall be non-refundable for any reason, except as provided by Texas Local Government Code Chapter 395;
- ii. PCU Fee pass-thru to Plum Creek Utility for wastewater treatment services (See Appendix A for the PCU Fee amount); and
- iii. Inspection Fee per wastewater tap (See Appendix A for the Inspection Fee amount).

10. Monthly Charges for Potable Water Service:

a. Potable Water Service Availability Charge – The monthly charge for metered water service is a flat rate per LUE, as defined in Section 5 above. Properties with water meters installed prior to the adoption of the LUE conversion table in Section 5.b. shall have a monthly charge based on their meter type and size as defined in Table 5.c. See Appendix A for the Potable Water Service Availability Charge amount.

b. Potable Water Gallonage Charge – In addition to the Potable Water Service Availability Charge, a gallonage charge shall be added at the following rates for water usage during any one (1) billing period: See Exhibit “A” attached hereto and made a part hereof. See Appendix A for the Potable Water Gallonage Charge amount.

11. Monthly Charges for Wastewater Service. The Wastewater Service Monthly Charge is a flat rate per LUE, as defined in Section 5. See Appendix A for the Wastewater Service Monthly Charge amount.

12. Construction Rate: A fee is charged for this type of temporary water service, and such fee must be paid in full before the District will set a construction water meter. This fee consists of a fee for the use of the water meter, and a refundable Security Deposit. The security deposit will only be reimbursed if the meter is returned to the CLSUD office (8870 Camino Real, Umland, TX 78640) in working condition and there is no unpaid account balance. All water for construction projects is billed per 1,000 gallons. See Appendix A for the Construction Rate amount.

13. Late Payment Fee. Once per billing period, a penalty shall be applied to delinquent bills. This late payment penalty shall not be applied to any balance to which the penalty was applied in a previous billing, but shall be applied to any unpaid balance during the current billing period. This late payment penalty shall not be applied to delinquent bills that are due during an extreme weather emergency until after the extreme weather emergency is over. See Appendix A for the Late Payment Fee amount.

14. County Line SUD will not notify a lien-holder. County Line SUD will not notify a lien-holder of past due bills for either potable water service and/or wastewater service.

15. Returned Check Fee. In the event a check, draft, or any other similar instrument is given by a person, firm, corporation, or partnership to the District for payment of services provided for in this Service Policy, and the instrument is returned by the bank or other similar institution as insufficient or non-negotiable for any reason, the account for which the instrument was issued shall be assessed a return check charge. (see Miscellaneous Transaction Forms). See Appendix A for the Returned Check Fee.

- 16. Disconnect Fee.** The District shall charge a fee for disconnecting water service as stated in District Service Policy Section E.10 and E.11. See Appendix A for the Disconnect Fee amount.
- 17. Service Trip Fee.** The District shall charge a trip fee for any service call or trip to the Customer's tap as a result of a request by the Customer or resident (unless the service call is in response to damage of the District's or another Customer's facilities) or for the purpose of disconnecting or collecting payment for services. See Appendix A for the Service Trip Fee amount.
- 18. Equipment Damage Fee.** If the District's facilities or equipment have been damaged by tampering, by passing, installing unauthorized taps, reconnecting service without authority, or other service diversion, a fee shall be charged equal to the actual costs for all labor, material, and equipment necessary for repair, replacement, and other District actions. This fee shall be charged and paid before service is reestablished. If the District's equipment has not been damaged, a fee equal to the actual costs for all labor, material, equipment, and other actions necessary to correct service diversions, unauthorized taps, or reconnection of service without authority shall be charged. All components of this fee will be itemized, and a statement shall be provided to the Customer. If the District's facilities or equipment have been damaged due to negligence or unauthorized use of the District's equipment, right of way, or meter shut off valve, or due to other acts for which the District incurs losses or damages, the Customer shall be liable for all labor and material charges incurred as a result of said acts or negligence. See Appendix A for the Equipment Damage Fee amount.
- 19. Customer History Report Fee.** A fee per page shall be charged to provide a copy of the Customers record of past water purchases in response to a Customer's request for such a record. See Appendix A for the Customer History Report Fee amount.
- 20. Meter Test Fee.** The District shall test a Customer's meter upon written request of the Customer. Under the terms of Section E of this Service Policy, a charge shall be imposed on the affected account for such meter test if more than two tests are requested within any 12-month period. See Appendix A for the Meter Test Fee amount.
- 21. Non-Disclosure Fee.** A fee may be assessed to any customer requesting in writing that personal information under the terms of this District Service Policy not be disclosed to the public. See Appendix A for the Non-Disclosure Fee amount.
- 22. Information Disclosure Fee.** All public information except that which has been individually requested as confidential shall be available to the public for a fee to be determined by the District based on the level of service and costs to provide such information, but not to be inconsistent with the terms of the Texas Public Information Act: Chapter 552, Texas Government Code.
- 23. Customer Service Inspection Fee.** Except as noted above, a fee may be assessed to each Applicant before permanent continuous service is provided to new construction. See Appendix A for the Customer Service Inspection Fee amount.
- 24. Administrative Fee.** All applications for the transfer of an existing service to a new responsible party shall complete all required application forms, etc. and pay a fee. See Appendix A for the Administrative Fee amount.
- 25. Additional Assessments.** In the event any federal, state or local government imposes on the District

a “per meter” fee or an assessment based on a percent of water use or charges, then this fee or assessment will be billed and collected as a “pass through” charge to the customer.

26. Backflow Prevention Expenses. It shall be the responsibility of the customer at any premises where backflow prevention assemblies are installed to have certified inspections and operational tests made at least once per year. In those instances where the General Manager deems the hazard to be great enough, certified inspections may be required at more frequent intervals. These inspections and tests shall be at the expense of the customer and shall be performed by the assembly manufacturer’s representative, District personnel, or by a certified tester approved by the General Manager. The customer may contract directly with a qualified inspector and provide the results of such tests to CLSUD, or the customer may request that CLSUD perform the required testing. If the latter option is chosen, the General Manager shall notify the customer in advance when the tests are to be undertaken so that the customer may witness the tests if so desired. These assemblies shall be repaired, overhauled, or replaced at the expense of the customer whenever said assemblies are found to be defective. Records of such tests, repairs, and overhaul shall be kept by the District and made available to the customer at the District’s office during regular business hours. If the testing and/or repairs are performed by CLSUD, the customer will be billed for this expense on their next monthly water bill.

27. Other Fees. All services outside the normal scope of utility operations that the District may be compelled to provide at the request of a customer shall be charged to the recipient based on the cost of providing such service.

28. Fees Subject to Change. All rates and fees contained in this document are subject to review and modification by the County Line SUD Board of Directors, as they deem appropriate. All approved updates will subsequently be reflected in this document.
